

DRASTIC CUT FROM STATE ESTIMATES

(Continued from Page One)

favorably the bill to close saloons on Good Friday. Mr. Martin, house chairman, said members interested in the bill were absent and on his motion the bill was tabled for calendar and printing.

Concerning School Physicians.

An act in amendment to the public acts of 1907, section 1 of chapter 207, was passed to read as follows:

The board of school visitors, board of education, or town school committee of any town, or the board of education or committee of any school district in each town having less than 10,000 inhabitants, may appoint one or more school physicians, and shall assign one of such physicians to each public school within such town or district, and shall provide such physicians with facilities for the performance of the duties provided for under the provisions of this act, provided in such cities and towns wherein the board of health maintains medical inspection substantially as provided for in this act, such board of health shall appoint and assign such physicians, and any town, city, or district may transfer to the board of health or to the local health officer the duties provided for in this act.

Signs and Trunk Lines.

The house concurred with the senate in the passage of an act which provides that the highway commissioner is directed to erect and maintain uniform signs, bearing directions for the guidance of travel, at points where two or more highways meet or intersect and to maintain on trunk line highways danger signs where the same may be necessary.

The Use of Vehicles.

The act concerning the use of vehicles upon public highways was amended so that the term "vehicle" when used in connection with the act shall apply to all vehicles except those which are designed to be propelled by hand. The person or vehicle overtaking another, and passing to the left of the one overtaken, shall do so subject to the right of way of those traveling in an opposite direction from his own and meeting him at the point where he is to pass the person or vehicle overtaken.

Every vehicle, whether stationary or in motion, on any public highway or bridge, shall have attached to it a light or lights which shall be so displayed as to be visible from the front and the rear during the period from one-half hour after sunset until one-half hour before sunrise. Such light or lights shall be of sufficient illuminating power to be visible at a distance of 200 feet, provided this section shall not apply to any vehicle designed for the transportation of straw, while such vehicle is loaded with such freight, nor shall it affect the provisions of any existing statute or regulation requiring lights on motor vehicles.

Concerning the Sale of Milk.

An act was passed which provides that every official authorized to prohibit the sale of milk shall state in each order for such purpose whether the time is issued to prevent the sale of milk which is unfit for consumption as food. Any official issuing such order shall ascertain the average daily quantity of milk produced by cows or goats of each person affected by such order of prohibition, and the municipality wherein such sale is prohibited shall pay damages for the value of the milk which such person has been unable to sell during the period of prohibition upon proof that at the time such order was issued such milk was fit for such consumption.

Any person aggrieved by such order, in the event of failure to agree with the municipality as to the value of the milk produced during such period, may collect the value thereof from such municipality.

Voluntary Associations.

The act which provides that when civil action is brought against voluntary associations was amended so that in case of judgment the property of the association be attached, rather than that of the members.

Order of the Day Thursday.

The majority and minority reports of the excise committee, both of which carry with them increase in the liquor license fee, were made the order of the day for next Thursday morning at 11.45.

IN THE SENATE.

Extension of Time for Norwich, Colchester and Hartford Road.

Hartford, April 16.—When the session of the senate opened this morning Senator Magee, chairman of the committee on appropriations, presented a general appropriation bill calling for \$13,051,501. The bill was tabled for calendar and printing.

The committee on shell fisheries reported unfavorably on a bill concerning the appointment of a commissioner of fisheries and game who should perform the duties of the shellfish commissioner. Bill rejected.

Examination of Banks.

The committee on banks reported a bill to amend the bill consolidating the bank commission and building and loan commission. It provides for the inspection of every bank, savings bank, trust company, building and loan association and mortgage investment company annually or oftener by the bank commissioner, his deputy, or an examiner of the department. Persons may be examined under oath which may be administered by the state official making the examination. Witnesses may be compelled to testify and produce books and papers. The bank commissioner, deputy or examiners or their assistants and clerks shall not impart any information obtained by them in the course of examination. Calendar.

To Yield \$2,575,000.

The committee on finance reported a bill on the taxation of corporations. The bill would yield an income of about \$2,575,000. Tabled for calendar.

Extension of Time to Build.

The committee on railroads reported favorably on a bill extending the time for the building of the railway of the Norwich, Colchester and Hartford Traction company to December 1, 1916. Calendar.

Frequenters of Gaming Houses.

The following bill defining the term "frequenter of gaming houses" was passed: "Any person who shall enter, except for an innocent and legitimate purpose, a place resorted to for the purpose of gaming, or which is reputed to be a gaming house or place frequented for the purposes of gaming, shall be deemed to be a frequenter thereof and shall be subject to the penalties provided in section 1391 of the general statutes." The senate adjourned to Tuesday at 11.30.

Gunpowder in Warfare.

The employment of gunpowder to hurl iron and lead balls in the thirteenth and fourteenth centuries sent all ancient artillery into the trash heap. Some authorities credit the Moors with the first use of cannon in Europe when they raided Spain in the thirteenth century. Others assert it appeared first at the battle of Crecy, 1346. It came into general use about the close of the thirteenth century.

THE MERCHANTS ARE IMPORTANT
TO THE VOTERS

The big contest will start simultaneously in all the stores Monday, April 19th, and will close at 6 o'clock p. m., July 19th, when all voting will cease, the final results arrived at with the assistance of a committee of local citizens appointed by the contestants competing. This committee to have the privilege of inspecting under the guidance of the Contest Manager, the final returns, for the purpose of satisfying all interested that the plan is conducted impartially. The Contest Man reserves the right to be a member of and referee this committee.

When you glance over the list of merchants secured for your favorable consideration you will find the exercise of discrimination throughout.

In securing this organization, the promoters were careful to obtain that class of business men whom the public knew to be thoroughly dependable. Therefore, the beautiful sentiment enunciated by this plan, the many virtues which follow its conception are fortified by the business men, who represent the commercial genius of your community.

The rules governing the contest are conceived with the idea in view of affording every one equal protection. That these rules will be enforced the very names of these substantial business men and the widely-known reputation of the Library Advertising Company, are sufficient guarantee.

SPECIAL INSTRUCTIONS
